MEMORANDUM

TO: Hospital Administrators
Hospital Pharmacists
Hospital Emergency Response Coordinators
Regional Hospital Coordinating Centers

FROM: Ngozi O. Ezike, MD
Director

RE: Week 2 Antibody Therapy Allocations to Hospitals

Week 2 allocations began the week of November 23, 2020 and the state of Illinois was allocated 2,930 vials of bamlanivimab. One vial equals one treatment course.

The following methodology was used to calculate the allocations to hospitals:

- Prioritization of Safety Net Hospitals and Critical Access Hospitals that serve high priority populations including aged, Latino, Black, and rural communities
- Consideration for the proportion of Med/Surg and ICU bed usage by COVID patients for the week of November 11, 2020 – November 17, 2020

Any vials not accepted by hospitals will be re-allocated to other hospitals based on urgent requests to IDPH.

Supportive Resources

For further information, hospitals can reference IDPH's ***Guidance for the Emergency Use Authorization of Eli Lillys and Company's bamlanivimab and Regeneron's casirivimab/imdevimab***. Additional resources can be found at the Assistant Secretary for Preparedness and Response's [COVID-19 Medical Countermeasures](#) website.

Questions regarding hospital allocations should be directed to ashley.thoele@illinois.gov.

Questions regarding the bamlanivimab distribution process from Amerisource Bergen should be directed to their customer support by calling 1-800-746-6273, or by reaching out directly to your Amerisource Bergen representative or email c19therapies@amerisourcebergen.com.

CMS has provided resources on billing for donated therapeutic on the agency's website. The [FAQ](#) document for COVID-19 Medicare Fee-For-Service(FFS) Billing. Information regarding hospital outpatient billing of EUA products can be found on page 121 of the linked document.
